Should BMDS Wizard files be included (they contain BMDS results)

Also, should DRAGON databases be included?

Hi John,

I have not received any comment from below assessments. Could you please go ahead and order BMDS files (past and future) from ICF, for below assessments? I will download them to the central repository.

Thanks,  
Christine

**Subject:** Central repository for all BMDS files

Hi all,

Per management request, I have created a central repository for all BMDS files (empty now) through EZTech on the O:\ share drive, and you shall all have been given right to copy/download. The purpose is to ensure that more than one statistician or assessment manager will have access to BMDS files for a given assessment, to systematically store BMDS files and to ensure the integrity of these files with limited access. For assessments where ICF has performed the modeling, the plan is to obtain files from ICF directly; In the future, where modeling is done by ICF or another contractor, the plan is to routinely ask the contractor to copy me (and perhaps others as designated), so a copy of the BMDS files can be saved to the central repository.

You are being contacted because I believe you are managers or persons in charge of below assessments, which have BMDS modeling/Dragon, done by ICF during the past few years. I plan to request modeling files directly through ICF during the next few weeks, then deposit them to the central repository. Please feel free to forward this email to your assessment team members and managers.

Please let me know if you have any comment/question by the end of next Friday (11/20/15), or if you think I have missed any one/assessment.

Thanks,
